GOVERNANCE AND MANAGEMENT

Effective boards understand the difference between governing and managing. Today's boards must be informed and want to be engaged, both to fulfill their legal obligations and to leverage their time and talent to advise management.

The governing body of a not-for-profit organisation has a responsibility to see that the organisation is acting in the best interests of the "stakeholders" who are served by the organisation's mission. For VNZ, the highest-order stakeholders are the members and the community.
